## Eugene Buyanovsky

MS in Artificial Intelligence Student at Johns Hopkins University

### About me

Hi everyone my name is Eugene. I live in New Jersey and have been working in IT industry for several years. I am a self taught programmer and used to develop .NET Web Applications using VB.NET and C#. I need to sharpen my skills again so I am doing a MS in AI at JHU as I am now into building AI agents, model context protocol servers and leveraging large language models to solve business problems, automate work. I am excited about learning Modern software concepts. I have taken formal CS courses such as data structures (I loved linked lists and sorting algorithms). Looking forward to learning together.

## Projects

### Module 1 - Project

This is a personal website, I am building it with Flask and Python.

GitHub: [https://github.com/ebuyano1/jhu\\_software\\_concepts/module\\_1](https://github.com/ebuyano1/jhu_software_concepts/module_1)

The screenshot shows a web browser window with a blue header bar. The header contains the text "Module 1 – Personal Developer Site" on the left, and "Home", "Projects", and "Contact" on the right, where "Contact" is highlighted with a yellow background. The main content area has a dark background and features a white rectangular box containing the heading "My Contact Information" and a bulleted list of two items: "My Email: [ebuyano1@jh.edu](mailto:ebuyano1@jh.edu)" and "LinkedIn: [linkedin.com/in/ebuyan](https://linkedin.com/in/ebuyan)".
